

“How do I get registered into the data-base for a new Doctor ??”

There are two databases that have been established to create a confidential list, which will be only available to physicians selecting patients.

1. **Ontario Health Care Connect**
 - Call 1-800-445-1822
 - Visit www.Ontario.ca/HealthCareConnect
2. **Admaston/Bromley, Greater Madawaska, Horton and Town of Renfrew Residents have the opportunity to be part of a locally administered data base through Renfrew & Area Health Services Village Inc**
 - Call 613-432-3328 (9 am – 4 pm weekdays)

However having a local database (Renfrew & Area Health Services Village) will facilitate the selection of local residents by new physicians.

*****Please Note *****

Neither option can dictate how new physicians will create their patient selection.
